Spring Cleaning on DOKweb.net

The Institute of Documentary Film officially launched the new documentary portal www.DOKweb.net in March 2010. In addition to the daily updated news section, the portal now boasts the most comprehensive online database of East European documentary films produced after 1989, a database of East European documentary professionals, and a detailed industry directory that lists European and international festivals, grants, funds, organizations, institutions, production and distribution companies, markets, workshops, film schools and many more categories.

Have a look at our checklist and help us tidy each of the DOKweb's sections:

[Database of professionals](#)

Update your CV, filmography! Add detailed information about your production company! Check your upcoming projects and completed films...

[Database of completed East European documentaries](#)

Check the credits, send us new stills for the photogallery, refresh the profile with new teaser! Share with us the film's festival history...

[Database of upcoming documentary films](#)

Has the synopsis changed? Would you like to show a new teaser? Have you started working on a new project? We'll be happy to update anything you need, including the stills.

[Industry directory](#)

Search the comprehensive listing of festivals, organizations, institutions, production and distribution companies, funds, film schools, markets, pitching forums, film journals, film web portals, etc. If you can't find information about your company, we'll be happy to set it straight!
